At the present time there is a story going the rounds of the eastern press that a sort of king bee trust, headed by the Standard Oil trust, is being organized for the purpose of obtaining control of the lead, leather, tobacco, whisky, gas and such other interests as may be desirable. The iron and sugar interests are already under the converted into places of desolation. It is of the greatest importance to Spain and Cuba have been greatly discussed that we have already filled the measure of sacrifice and self dental to unhold a condition of affairs which can no longer be endured. The longer the struggle is maintained, the greater will be the damage; the more will the fountains of prosperity be dried; harred and enmity will become more and more between such that the war be specified. spain and Cuba that the war be specifly terminated. All now agree to this. Even those whose mistaken patriotism led them to advocate an appeal to arms have yielded to evidence, and now proclaim that the war must be ended in the interest of all. So, leaving the content of the empty words aside, we must r loudly that Spain longs for peace.

Surely such words should have an offuence upon the Madrid government, Patriotism and love of country is an admirable trait in man, but even the trolled by passion akin to insanity, must yield to the verdict that Cuba is forever lost to Spain. With her hopes in that direction blighted, it is the better part of a proud and valorous people to retrieve their losses by study-ing the philosophy and emulating the of the men of Barcelona and Valladelid.

## SOME PRESS COMMENTS.

Left Banner: State Superintendent Park has ruled against trustees teaching school and holding effice at the same time. It will now be in order for him to rule against county superintendents doing the same thing. If it is not right in the first place, it must be wrong in the second, for it is a far more important effice than trustee and should take much more time. It was expected that the duties of this office would take the most of a person stime, hence a reasonable salary was paid. When a county gets so short of good men that one must hold this office and be principal of a district school, too, it is time some efficient men were imported.

The order, "Save yourselves!" was given.

Captain Grey led the retreat at full gallop, but a builet struck him and wounded him so severely that he lost his mount. The horse was borne onward by the rush in the rear.

Helpless on the ground within 40 feet of two leveled rifles, and almost within reach of a band of men carrying assegals, the officer had given himself up for lost when, to his intense surprise, he saw his faithful horse rush toward him and adopt a position which protected him from the weapons of his enemies.
